

High-tech, self-service payment solution

UX400

Contactless transactions have become the de facto standard for in-person payment experiences. Depend on the UX400 contactless solution for NFC-enabled payments, quick-identification confirmation, or other contactless transactions at unattended, high-transaction-volume environments, such as on-street parking meters, petroleum pumps, and ticketing machines. From mobile wallets to the wave of a card, the UX400 satisfies the need for secure and rapid contactless transactions. Pair this sleek device with the UX300 for your unattended contact and contactless payment solution.

- Weatherproof enclosure provides top-level protection against dust, liquids and other harmful substances, withstanding IP65
- Tamper-resistant design features anti-vandalism enclosure that can withstand an impact of up to 10 Joules, IK09 rating
- Optical guidance by four LEDs and illuminated contactless logo for user-friendliness
- System wake-up upon card or phone tap provides energy

and cost savings

- The UX400 is a single maintenance-free device and outdoor-rugged peripheral wrapped into one sleek, modern design
- No specific software is required on the UX400 everything is driven by the UX300 host
